May 12, 2022 at 6:14 PM EDT

EINDHOVEN, The Netherlands, May 12, 2022 (GLOBE NEWSWIRE) -- NXP Semiconductors N.V. (NASDAQ:NXPI) (together with its subsidiaries, "NXP") announced today the pricing of an offering by its subsidiaries NXP B.V., NXP Funding LLC and NXP USA, Inc. (together, the "Issuers") of \$500 million aggregate principal amount of 4.400% senior unsecured notes due 2027 (the "2027 Notes") and \$1,000 million aggregate principal amount of 5.000% senior unsecured notes due 2033 (the "2033 Notes" and, together with the 2027 Notes, the "Notes").

The Notes will be fully and unconditionally guaranteed on a senior basis by NXP Semiconductors N.V. and will be structurally subordinated to the liabilities, including trade payables, of NXP's other subsidiaries. In addition, the Notes will be effectively junior to all future secured debt of the Issuers and NXP Semiconductors N.V., to the extent of the value of the assets securing such debt. The issuance of the Notes is expected to close on or around May 16, 2022 subject to customary closing conditions.

NXP intends to use the net proceeds from the offering of the 2027 Notes, together with all or a portion of the net proceeds of the 2033 Notes to redeem the \$900 million aggregate principal amount of outstanding dollar-denominated 4.625% senior unsecured notes due 2023 (the "4.625% 2023 Notes") in accordance with the terms of the indenture governing such notes (the "4.625% 2023 Notes Redemption"), including all premiums, accrued interest and costs and expenses related to the 4.625% 2023 Notes Redemption. Any remaining net proceeds of the 2027 Notes will be temporarily held as cash and other short term securities or used for general corporate purposes, which may include capital expenditures or short-term debt repayment. NXP intends to allocate an amount equal to the net proceeds of the offering of the 2033 Notes to the financing of, in whole or in part, one or more eligible green projects, which are defined as investments in (A) research and development for NXP's (i) "green chip" resonant solutions, (ii) battery control and energy management for electric and hybrid cars, (iii) Advanced Driver Assistance Systems, (iv) mobile device "beam steering", (v) edge processing portfolio and (vi) smart building technologies, and (B) energy efficiency measures at NXP's manufacturing and non-manufacturing facilities. Pending the allocation of an amount equal to the proceeds of the 2033 Notes toward eligible green projects, we expect to temporarily use all or a portion of the net proceeds from the offering of the 2033 Notes to help fund the redemption of the 4.625% 2023 Notes.

Citigroup Global Markets Inc., Deutsche Bank Securities Inc. and Goldman Sachs & Co. LLC are acting as joint book-running managers for the offering of the Notes.
