

NXP's Discretes & Logic Selection Guides 2015

January 19, 2015 2:43 PM ET

The new 2015 editions of the Discretes and Logic selection guide offer insight into our complete range of standard products including:

- Bipolar transistors
- Diodes,
- ESD protection, filtering and signal conditioning
- MOSFETs
- Thyristors
- Standard logic
- Picogate logic

Additionally, both catalogs give detailed information about the numerous package options for NXP standard products.
