

New GreenChip power demos at APEC

March 2, 2015 2:35 PM ET

From March 15-19, the Applied Power Electronics Conference and Exposition (APEC), will be held in Charlotte, North Carolina, USA. APEC is considered to be the leading conference for practicing power electronics professionals.

At booth #1101, you'll find a warm welcome from our experts who are waiting to show you how our GreenChip technology delivers secure power for a smarter world.

Don't miss our CCM control and USB-PD demos, our new smart charging and high performance LLC solutions that will be unveiled at the event, ... and much more.
