

NXP receive Continental Supplier of the Year award

August 31, 2015 12:41 PM ET

The annual event, recently held in Dusseldorf, recognizes outstanding performance amongst Continental's strategic supplier base of over 900 suppliers.

Known for the stringent judging criteria, the awards are very much respected throughout the industry. Winners are selected following the comprehensive and systematic appraisal of approximately 900 of Continental's strategic suppliers. This accomplishment recognizes our commitment to quality and endorses our position as a leading automotive industry supplier.

Frans Scheper, Executive Vice-President and General Manager for NXP's Standard Products business, joined the exclusive awards ceremony with the Continental account team to celebrate this coveted achievement.

We are a key supplier to the automotive industry, and a clear leader with a dedicated focus on low voltage MOSFET solutions for automotive and industrial applications.
